

What do I need to know about office panels?

Office panels can be an attractive, practical and inexpensive way to:

Provide "Private" individual and/or group work areas through the use of:

- Straight panels
- Curved panels
- Smoked Plexiglas panels

Provide additional storage through the use of:

- Transaction tops
- Overhead storage units

Direct the flow of traffic through the use of:

- Four heights of panels
- Nine widths of panels in six inch increments from 24" to 72"

We offer a budgetary panel system that is an easy-to-use, completely portable system.

It may be freestanding or linked by hardware. The "Chromed", "Painted Epoxy" or "Fabric Wrapped" steel frames, coordinate with any existing office furniture. This modular panel product offers three grades of fabrics to enhance any color scheme.

Reduce glare by selecting proper panel heights

- Ceiling lighting
- Sunlight

We offer a variety of modular furniture products to provide solutions to any of these areas.
